Public Library

Marianne Hassler, wife of F. R died 2/25/1858 age 86 on Long Island  
he died 11/20/1843

It seems to me if she is from a local Hassler family, it would be from  
the oldest son, who did manage his father's property here from some years.  
Possibly she will know more about this.

You would find the book I mention in the letter very interesting. If you  
can't get it at the library, perhaps I can loan you this one for a while.  
Hassler's greatest claim to fame was that he was the first supt. of the  
US Coast Survey. I don't think there were too many of the book printed-  
it is by a Christopher Publishing House, Boston, USA 1929, and I have  
never seen another copy - I picked this up at a sale here in town, and  
don't believe the Watertown library has one.

PO Box 93

Dear Dr. B:

You should not apologize for your tardiness - technically speaking I am not as busy as you are - being one of the millions who label themselves "housewife" when the census taker calls - and I hate to look at the stack of mail I should do something about. The worst thing about genealogy, I find is the amount of time it takes to answer letters about people of whom you know nothing. - They take a chance and write asking questions about families who never entered this area.

Had to put a lot aside because the daughter required - she thought - additions to the wardrobe, and fortunately, she thinks mama can outdo the local stores. She is the sort of girl who repays dressing, for she wears clothes well - the slick kind - no ruffles - and I can copy things from the NYC papers etc. Then all the outside work started, and engineers take no interest in growing things or even cleaning up yards. And there is quite a lot to do inside too.

I was deviled into putting some original sterling jewelry in the Artists Guild Show in Watertown last weekend, and was amazed to find that one piece set with garnets (tumbled) took second place. This was not so much, except that ~~XXX~~ of this set of judges, one was the author of a book on modern jewelry that is used in most of the high schools and colleges. The first prize in Crafts, in which class the jewelry was, went to a set of puppets which I think were professional.

I think the gal who wants the Duc'ons has been in touch with Dr Scott - in fact a note on some of their material indicates that - yes, I find a note ~~xxx~~ that Adam is the ancestor of Dr. Scott of Kingston, Ont. Claudius came to Alexandria Bay - he is in the 1825 census - and I sent her what I could find down there. I am rather ticked at the minute, as she promised she would pay the expenses of driving to Alex Bay - about thirty miles down from here etc, I can't remember how many trips I made, but \$6.85 doesn't go very far when there were seven or eight. She is descended through Stephen and Betsey Clark who died in Hammond, St. Lawrence County, son of Adam.

I am enclosing a couple of sheets on Hornes of Wolfe Island. I've never worked on this very seriously, just made notes and put them together as they came to me. I have some material on all the other Hornes noted on the back of the sheet, and if you want that, will type off. Just let me know.

On the Harriet Hassler - this I am definitely interested in - I believe she descended from Ferdinand Rudolph Hassler, who if he lived today would have been a really great guy - but was unappreciated back in the late 1700's and 1800's - however, I can quite figure out how. I will put on another sheet what I have on this family - and it is the only one I know of around here. What I have is taken from a book, "The Chequered Career of Ferdinand Rudolph Hassler" by Florian Cajori, and I think was a master's thesis for the University of California. Hassler was the man who was responsible for the international line between Canada and the US for one thing, taught at West Point, was Supt. of Weights & Measures for the US etc. He lived here at CV about 1820, and one of his daughters married a local man as her second husband - and believe she is buried at St. John's. I have never traced the family down, but it would be interesting to - and if your friend has any data, would like to have it.

This letter is getting altogether too long.

I would like to know anything they might be willing to tell me about the Haslers or Hornes - and also anything Mrs Can Alstine might have on her husband's family. I have a big notebook on Van Alstyne-Van Alstines of Canada, but have never found the one for whom I was looking, Bernard born Fredericksburg ~~1810~~ 1808 married Esther Allen.

My typing is terrible because I'm trying to hurry - I'm due to take some Girl Scouts out to the woods in about half an hour.

I wonder if there could have been an older cemetery on Wolfe Island. I have all the older ones I can find, Woodman, Middle, Horne's and Anglican. I haven't done the Catholic, as it seems to be a later date. Perhaps this summer however, I will do that one too.

I have been over the St. Andrew's Presbyterian - now United Church records and copied many of them, but there is a 20-30 year gap. I can't copy them all - I just don't have the time.

however, one thing irks me. I have been to Kingston three times, and to the Anglican Disocese, where I am told that the W.I. Anglican records are, and every time I get a real run-around. First, the man in charge was on leave, and no one else could do anything. The next two times he just was not there when I was, and wouldn't be while I was in the city and had the time. There are some here that I want very badly, including some early Armstrongs, who married into my father's family.

I presume this is way out of your area, but am wondering if in your reading the name of Harten has ever shown up. I have a Thomas Harten born 1844 married Margaret Cummings, dau of Elisha and Patilda Howbrey Cummings, and produced Habel born in Merrickville, who married 1895 Robert Johnstone - all these of Canada. I have a lot of odds and ends of Cummings information, although nothing more on Elisha - but there is a family tradition that the family was UET.

Also, remember I asked you once before about Johnstone. In "Destruction of Minisink, from the examination of Harbary Owen 7/29/1779, the following Tories left among on 7/8/1779: Henrk and John Huff, Nicholas Miller, Todrick Seeley, Relief Johnston, William Crum, Benemy Crum, Anthony Westbrook, John Barnhart, John Chesson, Dan Cole, Johs. Cole, Ebenezer Allen and fourteen others. (I'd give a lot to know who the other 14 were.)

I still hope to get over your way. Last summer we had so much company etc that it just seemed impossible to do many of the things I wanted to do. Then when my aunt broke her hip, I just gave up and stayed home.

Now Sam III, the son, is no longer home. He is working on the desk of the Syracuse Herald Journal, and carrying nine hours at the University to finish up, so that will be one less to account for all summer, and perhaps Sam and I can spend some time across the border. There just CAN't be many more relatives to come and visit, and I don't think they would have the nerve to come two years running.

Thanks again for the Duc'on information, and hope you find something here that helps. Now I must get on with the twenty letters that came before yours.

Sincerely,

*Lilla Corliss*

From the Vance Family Bible

William Vance born Oct 17, 1802 and  
Hannah Adams born Sept 10, 1811 and  
were married Sept 7, 1826. by Rev. Robert Mc Dowall

Births

Children of William and Hannah Vance

- (1) Sarah born May 18 1827
- (2) Eliphaz G. born Oct 27 1829
- (3) Elizabeth McCutcheon born Feb 11, 1832
- (4) Mary Washburn born July 3 1832

The Vance family seems to have moved from  
southern Scotland to Ireland where William  
Vance was born.

His uncles on his father's side were sea-faring  
men, three of whom served under Nelson

William married Sarah Mc Dowall in Ireland.  
but she died. there were no children so William  
set out to seek his fortunes in Canada. By what  
route he reached the Bay of Quinte area is not  
known but early maps show that he and his  
brother Francis bought two hundred acres on the Bay of  
Quinte at a point where Bridge St Picton becomes  
the Bay of Quinte. This property seems to have  
been a part of the Yee tract. The property has not  
changed hands, and at the time of writing is occupied  
by a <sup>member of the</sup> fourth generation of that family

John Hasler. (Will)

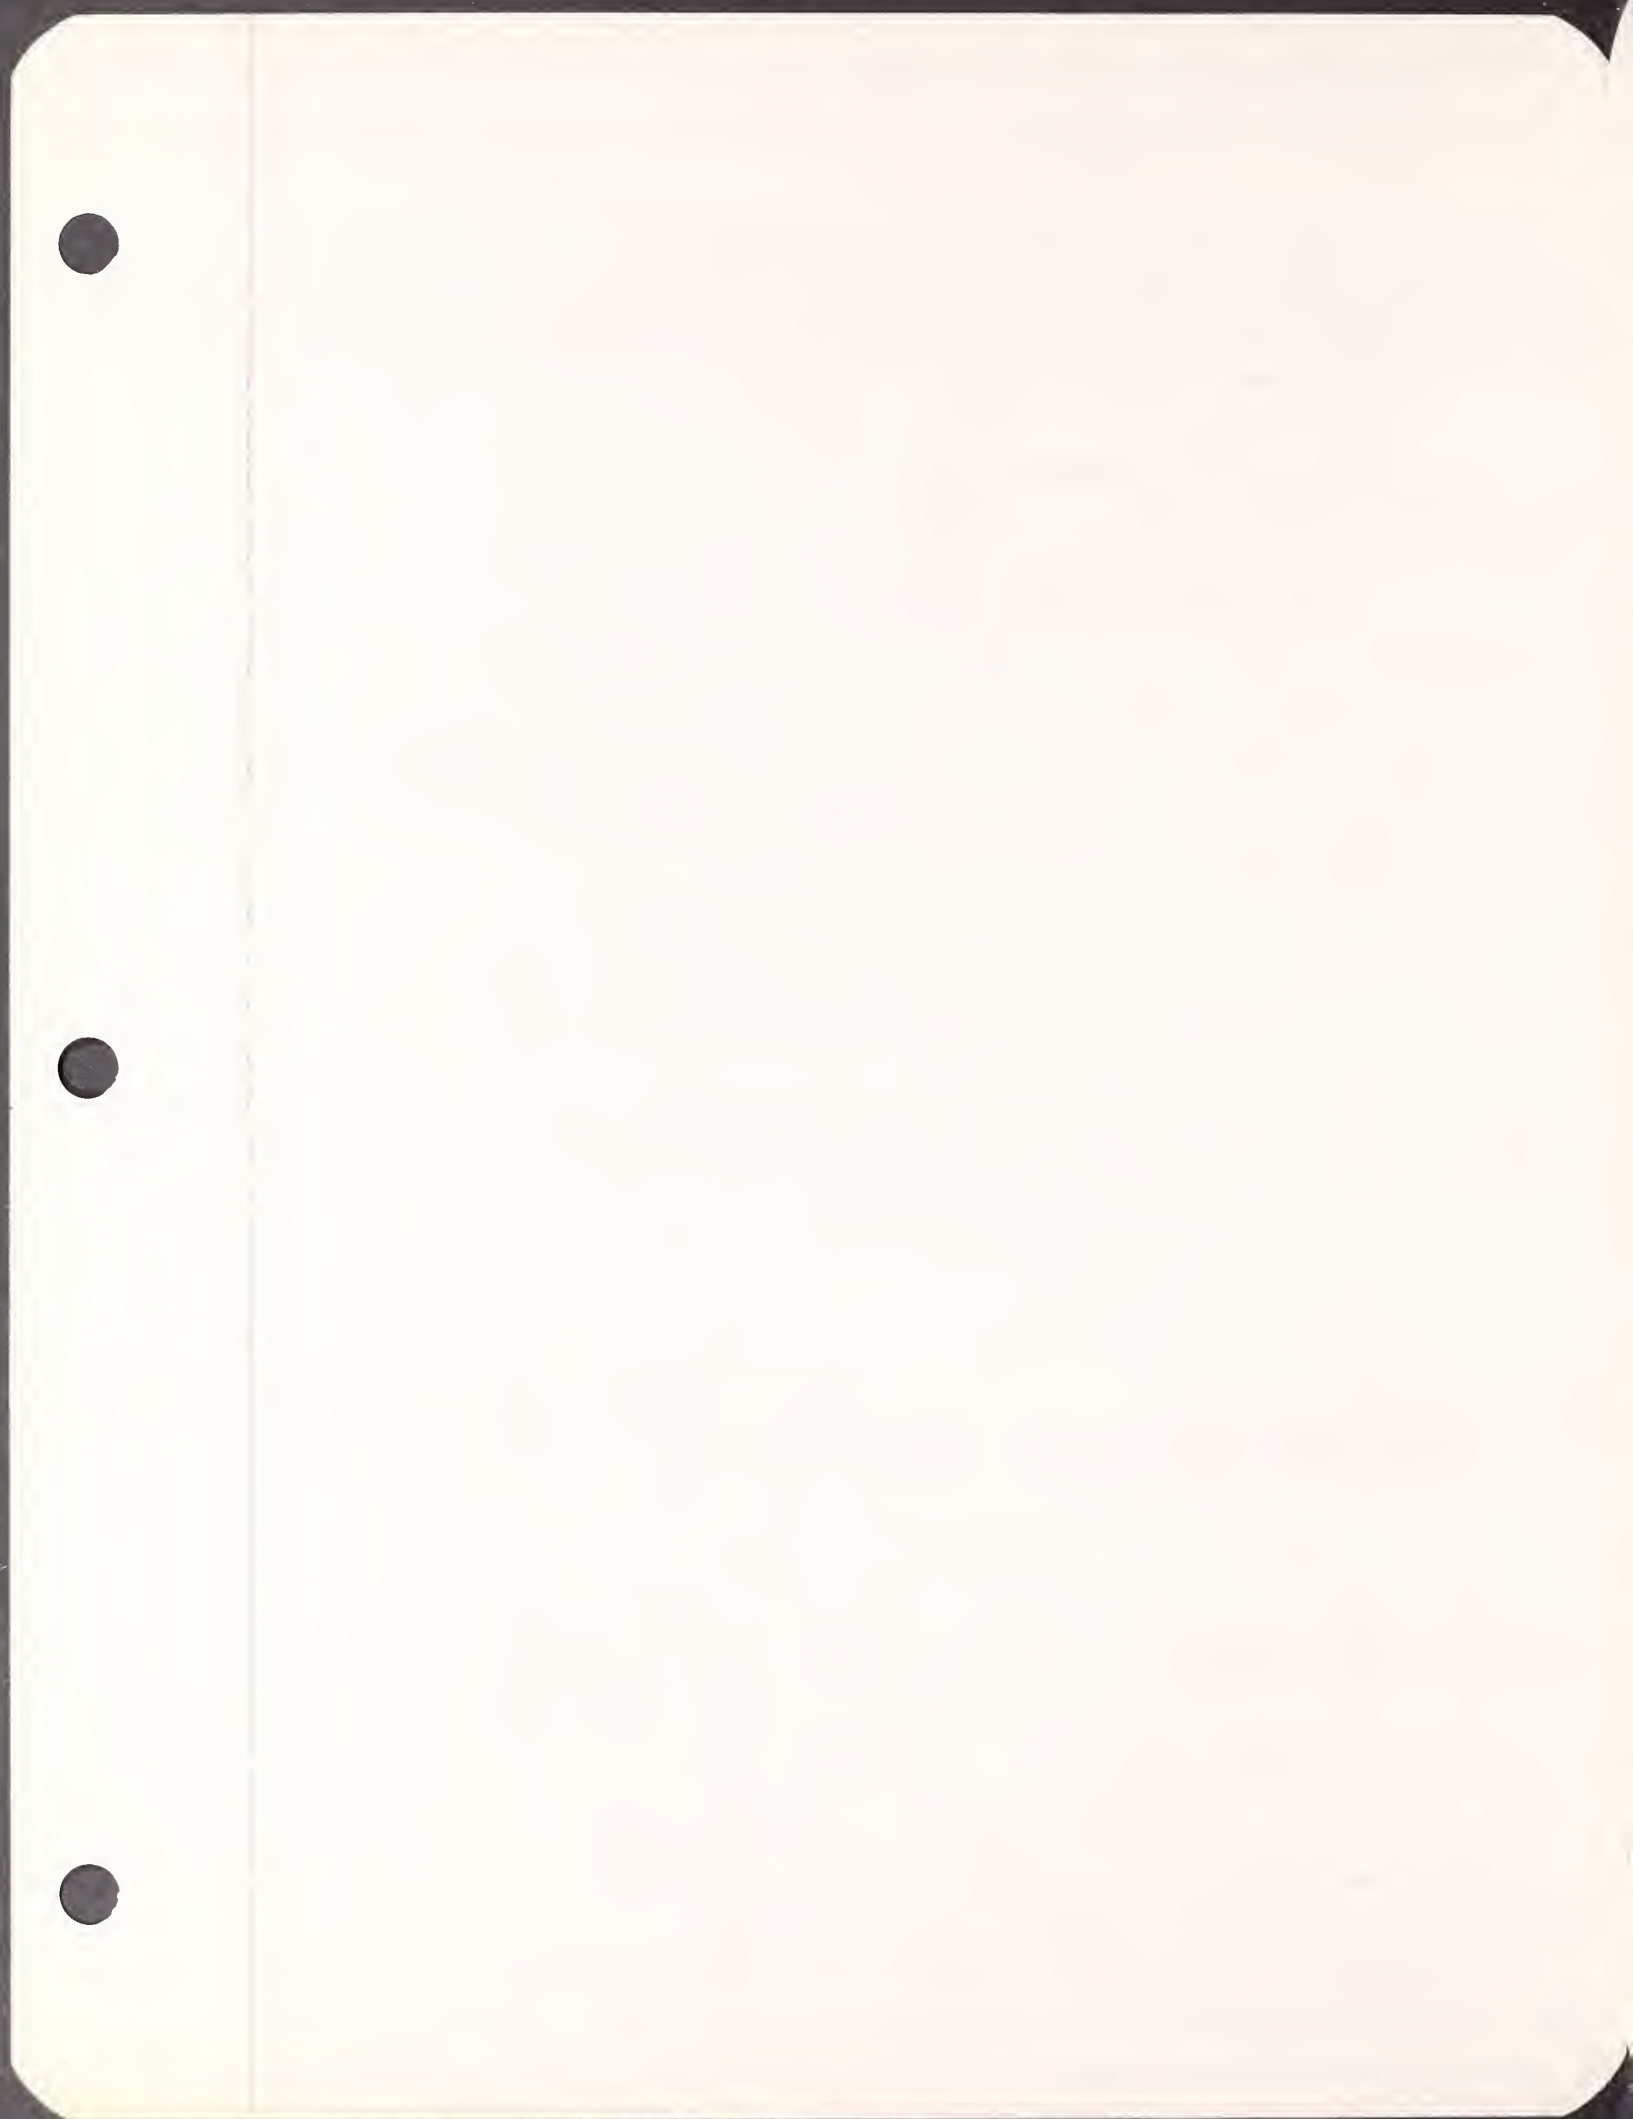

to the disposal of the third part of the produce of the sale of my interest in the lands of Dalkey held by my father, the late John Hasler Knt. bequeathed in my will to my children by my first marriage, as instead of the entire of that third part going to my sons by that marriage I desire that a third part thereof shall be added to the sum of one thousand pounds already secured to my daughters as the amount of an insurance on my life and so in equal proportions with the amount of that insurance to my three daughters by that marriage

I ordain that my wife Catherine Hasler shall have for her life the use of such property as I bequeath her (a child's share) and that at her death such property shall go in equal proportions to such of our children as may remain unmarried or if all be married, to such of our children as she may think proper to bequeath it to

I ordain that the expenses attendant upon the assertion of my right to the property in Dalkey (as possessed by my late father) and the recovery of the same shall be defrayed out of the produce of the sale of my interest therein, and such expenses shall be borne by those to whom such property is bequeathed in proportion to their respective shares, thereof should the Reverend Richard King hereafter be so circumstanced as that it be inconvenient to him to continue the guardianship of my children, I request of him and empower him to nominate any proper person to act in his stead and carry my intentions as above expressed, into effect

This codicil to my will I hereby ordain to have the force and effect of my last will and testament and for this purpose I have hereto set my seal and signature this second day of March 1837
